

## Encourage

1. City history
2. Lots of galleries and stores in a small area
3. Greenway & MO River bridge
4. Maybe consider safe storage of bike at transit transfer location. Leave bike, ride bus, return, and ride back!
5. Safe and beautiful routes
6. Greenway
7. Katy trail
8. Awesome destinations
9. 3 great bike shops
10. 3 great bike shops
11. Bike racks at the MRRL and El Jimmy's on Edgewood!
12. Bike racks on transit buses. Great addition! [2<sup>nd</sup> comment – Yes! I think so too!]
13. You could get everywhere small city- easy to walk and bike BUT [continued on into negative]
14. Memorial bike rack for City Hall!

## Discourage

1. [Continued from #13 above] can't walk and bike most places – no safe streets or paths.
2. Mindset that roads are for cars instead of for all forms of transportation equally
3. Sidewalks on only one side of Mo Blvd. Safety issues.
4. Sidewalks (lack)
5. Mo. Blvd. can't cross safely – except at Boliver.
6. Needs more shade trees downtown
7. Lack of pedestrian bridges
8. Lack of sidewalks in many neighborhoods. [2<sup>nd</sup> comment – I second this]
9. Isn't safe or doesn't FEEL safe
10. Sidewalks on Mo. Blvd. of little help if you can't safely cross the street & you can't.
11. Lack of education – bicyclists and drivers
12. Safety
13. Lack of sidewalks
14. Need sidewalks on Diamond Ridge.
15. Need more bus routes, smaller buses, longer hours, weekend (Sat.) routes.
16. South of Stadium, 54 is a complete barrier to east-west walk or bike.
17. More bike hubs for safety locking bikes up, secured lock-up.
18. On 4<sup>th</sup> of July 2014, I biked from Holts Summit early in the day. My commute was stopped at the Mo River, because the ped/bike bridge was locked. I spent my holiday home alone instead of with a large group of friends in JC.
19. City is designed for cars and so what we get is cars. Need to plan for people & places. Sidewalks need to be everywhere and in good repair.

20. Need to make areas more people friendly – this means making place – slowing down traffic-creating spaces where people want to be.
