

**Jefferson City TDP
September 20, 2005 Public Meeting
Summary of Input**

Thirty individuals signed the attendance sheet. Twenty five individuals completed and submitted the public input form provided entitled "JEFFTRAN Transit Survey."

The first question on the input form asked attendees to rank possible service expansion improvements, 1) extending service from 6:30 AM to 6:30 PM, 2) establishing Saturday service and 3) establishing evening service to 9 PM. The results are as follows:

	First	Second	Third
Expand service hours	13	5	7
Saturday service	15	4	6
Evening service	11	4	10

Saturday service was rated highest, with expansion of the base service hours a close second.

Individuals were also asked to indicate whether they would support a fare increase to 75 cents or an increase to \$1.00. The results are as follows:

	Yes	No	Not Sure
Increase to 75 cents	17	2	6
Increase to \$1.00	9	8	8

The attendees clearly support a fare increase to 75 cents, but are not supportive of an increase to \$1.00.

The final question asked whether the attendees are in favor of moving the transfer center to the bus station at 620 McCarty. The results were overwhelmingly in favor of the move, with 18 individuals responding yes, no one responding no and seven responding "not sure."

The following is a summary of the written comments received:

- Look into future Missouri Blvd. loop, like downtown loop.
- Look into Columbia connector.
- Look into Amtrak connection with downtown loop.
- Transfer station needs no change – would be a waste of money.
- Still need a disability discount.
- Need additional routes, such as to recycling center on Idlewood.
- Evening service will be cutting into ILC evening transportation program.
- Does bus still go to JCMG and back to town?
- Improve Handi Wheels
- Consider Missouri Blvd. express.
- Consider a route out west Edgewood for students and parents of Thomas Jefferson Middle School
