

Jefferson City Parks and Recreation
Joseph C. Miller Memorial Park

RC Flying Field Permit

Name: _____ AMA Number: _____

Address: _____ City/Zip: _____

Telephone Number: _____ E-Mail Address: _____

Permit expires December 31st of current year

- Individual flying permits are required. Please be prepared to display your permit to Jefferson City Parks and Recreation, the Jefferson City Radio Control Club members or Law Enforcement upon request.
- Academy of Model Aeronautics membership is required.
- In addition to AMA membership...users of the R/C field are expected to abide by all existing applicable Federal, State and local regulations.
- Automobiles will be parked in the designated areas only. The gate shall be locked when the field is not in use.
- No one is allowed in barn area without written permission from Jefferson City Parks and Recreation.
- No engine or motor running is allowed in the spectator area.
- All Transmitters, excluding 2.4 GHz, will display frequency flags.
- All pilots using transmitters other than 2.4 GHz, will monitor and make sure others flying at the field are not sharing the same frequency so that conflicts in transmitting do not occur. A 20 minute time limit for frequency use should be followed when more than one pilot are sharing the same frequency.
- No flying permitted over the spectator or pit areas.
- All flying shall be confined to the air space designated on the aerial map displayed in the shelter house located at the north end of the flying field.
- Absolutely no flying allowed beyond the tree line along the east side of the field
- Pilots will stand only in the areas designated for flying.
- No alcoholic beverages on premises.
- Hand launching will be done from the active runway.
- Sailplane high-starts will run parallel with the active runway and the line will be equipped with a drag chute or similar device.
- No nitro or gas engines will be run before 9:00 am or after 9:00 pm.
- Mufflers are required for all engines over .051 cubic inches.
- All trash must be picked up before leaving the area.
- Spectators are allowed only in the designated area. Guests may be taken on the field or in the pit area only if closely supervised by a permit holder.
- When a model experiences "radio interference" or "dead stick", the pilot or his helper shall loudly and clearly warn the other flyers of the situation. Landing priority will be given immediately to the flyer experiencing difficulty.
- At no time should any user fly an aircraft in such a manner that it passes over an occupied dwelling. Flying over dwellings is grounds for suspension of privileges and repeated violations will result in disenrollment.

I HAVE READ AND AGREE TO ABIDE BY ALL THE PROVISIONS OF THIS AGREEMENT.
